

INNOVATIVE ANTI PHISHING CARDS FOR BANCO POPOLARE

IRETH is proud to announce that GRUPPO BANCO POPOLARE has choose, adopted and distributed to its customers the D800s TOTP displaycards, to be used for its multi-channel "Servizi By", getting high secure accesses.

IRETH is the First Mover of TOTP Displaycard worldwide. D800™ TOTP is the innovative Anti Phishing OTP Time Based displaycard for Banking.

Paolo Bernardini, IRETH CEO, has followed closely the important project:

"I'm satisfied about the choice made by BANCO POPOLARE, that has early grasped the particular advantages of our unique technology: security, portability and simplicity of use. The modern banking authentication solutions don't rely anymore on old, bulky and limited tokens, but they are increasingly adopting pervasive and innovative devices such as the Displaycards. The benefits will be both for customers and for the bank. "

D800™ displaycard is the only Cost-Effective, Easy To Carry, Multi-Channel and Multipurpose OTP Displaycard, in ISO 7816 credit card format, that can be used every time and everywhere.

IRETH D800™ Series is the most innovative and powerful *All-In-One* Displaycard suite for Strong Authentication and Payment functionalities.

D800™ Displaycards allow for Anti Phishing and Anti Fraud on-line Banking and e-Payments Validations.

They can be issued according to OATH standard, CAP, or custom specific algorithms. OATH is the standard for universal OTP authentication.

All the cards in D800™ Series are compliant with IRETH IAP800® Server, considered by *Politecnico di Torino*, as well as by other major Consulting companies, a very effective Platform for Strong Authentication and Anti Fraud.
